

EAST MISSISSIPPI COMMUNITY COLLEGE: SUMMER ENROLLMENT UP 35 PERCENT

Summer enrollment at East Mississippi Community College is up by 34.7 percent. As of June 14, a total of 3,087 students were enrolled – up 795 students from the same time last year.

“We’re happy to see so many students taking advantage of summer classes, whether they’re getting a head start on the next academic year, or taking classes for their own personal enrichment,” said EMCC President Dr. Rick Young.

“At EMCC, we’re all about knocking down the barriers that stand between people and opportunity. If students have scheduling barriers, counselors can work around their jobs and family responsibilities. If the barriers are geographical, we try to offer classes in as many places in our six-county district as possible to cut down on the commute.

“The tuition guarantee program is still available to high school graduates in our six-county district. And, students who register for fall classes before Aug. 1 are eligible for an \$80 discount on their fees, from \$200 to \$120.”

Of the 3,087 students registered for summer classes so far, 2,141 are taking classes at EMCC’s Golden Triangle campus in Mayhew. At the Columbus Air Force Base branch, 261 students are registered.

In the southern end of EMCC’s district, 609 students are enrolled at the Scooba campus, and 76 at the Naval Air Station Meridian branch.

“I feel this increase shows that students recognize the quality instruction at East Mississippi Community College,” said Michael Black, EMCC recruiting coordinator. “The flexibility of scheduling options and low cost make us a very appealing choice. And with the tuition guarantee program, EMCC is poised to maintain its growth for many years to come.”

Summer enrollment numbers at EMCC are expected to climb even higher. The first summer term is under way now. The second summer term runs from July 7 to Aug. 6; the last day to register is July 6.
